

---

---

Version 0.93 2018-05-17

---

---

\* Cleaner initialization.

---

---

Version 0.92 2018-05-16

---

---

\* Improved Art-Net and sACN network traffic filtering.  
\* Optimized RDM table of device memory organization.  
\* Changes to memory management.  
\* Fix: Display content used to appear shifted occasionally.  
\* DMX outputs are now turned off if low supply voltage is detected.  
\* Improved displaying of fatal errors.

---

---

Version 0.91 2017-11-20

---

---

\* All RDM UUIDs and MAC addresses are now listed in the device info screen.  
\* Improved display of network address information.  
\* Changed memory management:  
    All dynamically allocated memory is now managed by a single heap.

---

---

Version 0.90 2017-11-07

---

---

\* First release.
